How to measure

Chest (jersey): lay the jersey flat, measure side seam to side seam at armhole level.

Body length: top of back collar seam straight down to the bottom hem.

Waist (shorts): around the waistband, laid flat and relaxed.

Outseam: top of the waistband straight down the outside of the leg to the hem.

Tip: Basketball jerseys are worn loose — if between two sizes, size up. Youth players grow fast: consider sizing up for mid-season orders.
